

Dear Mr. Bob Spohrer,

Thank you for all that you did in our malpractice case. We are ecstatic to have the emotional relief from the stresses of paying for C's therapies. The resolution of this case did not only provide us a sense of justice but it also gave us answers to many questions we had about what happened and what the future holds. This has given us a sense of closure and peace of mind as we move forward in C's care and recovery.

I know that you were instrumental in the progression of this case as early on it was discussed that the numbers might not make this case viable. Clearly your persistence paid off and that did not go unnoticed. The kindness, ethics, and morality among everyone we worked with at your firm are top notch. I will recommend everyone and anyone who needs an attorney for areas of which your firm practices to Spohrer and Dodd.

Thank you again and Happy Holidays!

Sincerely,

S., P. and C. N.
